

Laser Ready

Engraver Ready

Exterior Use

UV Stable

LaserTuff's top color surface is a unique, 100% acrylic multi-polymer, .003 thick as opposed to the normal .001 foiled (ink-based) surfaces currently being produced within our industry, including by IPI. LaserTuff series fills the need for a product that can be lasered and still meet demanding project requirements for long-term durability, wear, impact and fade resistance.

Sheet Sizes and Thicknesses

Sheet size: 1245 x 610 mm (4' x 2')

Thickness: 0.3mm (0.012")

★ Gloss Finish

Specifications

Material: Laminated Impact Acrylic

Finish: Matt non-glare and gloss

Interior use: ✓

Exterior use: ✓

Engraving method: Laser & Rotary

Engraving depth: No less than 0.08 mm (0.003")

Cutting method: Saws / drills / heat bendable

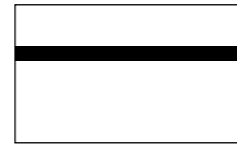

Other features: Bonds, screen prints, hot stamps

Uses

- Interior Signs ■ Control Panels ■ Trophy Plates
- Exterior Signs ■ Badges ■ Awards
- Plaques ■ Rating Plates ■ Industrial Environments
