

# Laserable Wood Products

## Alder Wood Photo Frames

These frames are popular for almost any occasion. Made of the same quality joinery and smooth grain, Alder Photo Frames come complete with glass and folding easel back that allows for a vertical or horizontal orientation. They are easy to laser engrave and can be further enhanced using products like LaserLIGHTS and LaserBits Pro Colour Fill

## Natural Basswood

Natural Basswood Planks are perfect for laser engraved images or verses. Planks come in 3 different sizes and are 5/8" (16mm) thick. They have a natural bark edge which helps frame your laser artwork, and are rustic, natural, with each one unique. Planks are smoothly sanded and unfinished. They look great natural or you can apply a clear coat of varnish to enhance

## Maple Wood Products

Our range of maple wood products are easy to engrave and give a fantastic contrasting mark. They make great personalised or corporate gifts. Presentation cases and pouches are also available for that nishing touch
